

# H6FIT Wellcare AI Sandbox Summit: Press Kit

## Official Press Kit

### EVENT OVERVIEW

Event Title: H6FIT Wellcare AI Sandbox Summit

Theme: The Sandbox Collective: Reimagining Health, Ownership, and Technology

Date: June 18, 2025

Location: Virtual / Life-like Digital Campus

Expected Attendance: 500 Founders, Visionaries, and Early Adopters

### Summary:

The H6FIT Wellcare AI Sandbox Summit is a first-of-its-kind event introducing a revolutionary shift from industrial sick-care to personalized, decentralized wellcare. Featuring AI agents, digital operating licenses, and fractional virtual real estate, H6FIT is building a new health economy. Attendees will explore the full H6FIT Web 4.0 Stack and co-create its future.

### THE FOUNDER'S VISION

Paul Epstein: From System Survivor to Health Sovereignty Architect

For 25 years, I was trapped in the very system I now seek to replace. After being told to "go home and wither away," I sold everything to save my life—and started from scratch. That decision led to a two-decade journey into functional, integrative, and holistic

medicine. I studied, healed, traveled the world, and learned from the healthiest populations on Earth.

H6FIT is the culmination of that journey. It's the inversion of sick-care. It's a complete reimagining of how health, wealth, and technology can work together to serve people—not exploit them. I created this ecosystem so no one else would have to suffer through the confusion, corruption, and chronic neglect I endured. H6FIT is the system I wish existed when I needed it most.

### SUMMIT PURPOSE & LEGACY

This isn't a webinar. This is a declaration.

The Sandbox Collective brings together 500 courageous practitioners, entrepreneurs, and early adopters to co-create a new wellcare economy. It's the first public opening of the H6FIT Omniverse—an AI-native, ownership-driven platform that reinvents how people engage with their health.

Attendees won't just learn. They'll shape the next era.

This Summit will be remembered as the moment the healthcare rebellion became a movement—and the movement became a system.

### INNOVATION SNAPSHOT

What Makes H6FIT Different:

- EVA (Evidence-Based Virtual Advisor): A wellness AI built to educate, guide, and optimize each individual through their personalized health journey.
- Digital Operating Licenses (Not NFTs): Coaches and practitioners can operate AI-supported digital practices, owning their income and identity without traditional overhead.
- Fractional Real Estate Ownership: Participants can invest in life-like virtual Wellcare Centers—gaining access, governance, and financial upside.
- CANDISE & GWEN: AI-powered agents for business development and client service—designed to replace high-cost labor with elegant intelligence.
- Web 4.0 Integration: The Omniverse blends immersive digital habitats, AI logic trees, tokenized ownership models, and live support.

This is not a clinic. It's a sovereign system.

- Include your name, publication, audience reach, and intent
- Or download the official pass application form from the event page

### ABOUT H6FIT

H6FIT is the first AI-powered, tokenized Wellcare Omniverse. Rooted in Functional & Integrative Therapeutics, H6FIT delivers:

- Virtual Wellcare Centers
- AI-driven Personal Advisors (EVA)
- Concierge Coach Licenses (Side Hustle Empowerment)
- Fractional Real Estate Ownership in a Web 4.0 ecosystem

H6FIT isn't just a brand. It's a shift in power—from sick-care dependency to self-owned health optimization.
